Rs. 422 crore MUDA fund

to be utilised to improve MUDA-developed Layouts

District Minister and MUDA Chairman thank CM for granting permission to utilise MUDA funds

Mysuru, June 22 (SBD&DM)- District Minister S.T. Somashekar said that the State Cabinet has granted permission to Mysuru Urban Development Authority (MUDA) to utilise Rs.422 crore out of its (MUDA) own funds for taking up various development works and infrastructure improvement in the Layouts developed by the Authority.

In a press release, Somashekar said that this significant decision was taken at the Cabinet meeting held in the State capital on Monday.

Pointing out that this decision will give impetus for further development of Mysuru, he said that the Cabinet gave sanction to MUDA for using the funds (Rs.422 crore) on completion of all pending works and to improve civic amenities in Layouts already formed by it.

Noting that the funds will be utilised for completion of works in MUDA-developed Layouts that remained pending before they were handed over to the Mysuru City Corporation (MCC), Somashekar said that MUDA has formed about 15 Layouts and distributed a total of 46,746 sites in the past 25 years. Infrastructure development works in old extensions too will be taken up in accordance with the present day requirements, he added.

Somashekar further said that the Government's sanction for MUDA proposal will add more strength for development of Layouts. Many developmental works such as construction of Link Road for Outer Ring Road, overhaul of Under-Ground Drainage (UGD) system in some localities, construction of manholes, laying of UGD pipelines and Trunk lines will be taken up, he maintained.

Stressing on the need for focusing on drinking water supply network, Somashekar said that expedition of Hale Unduwadi Drinking Water and Kabini Water Projects will be taken up on priority, for which MUDA will chalk out plans.

Yediyurappa

Somashekar

Rajeev

Continuing, Somashekar said that the Cabinet's sanction is an indication of the Government's commitment for overall development of Mysuru, the cultural capital of Karnataka.

Thanking Chief Minister B.S. Yediyurappa both personally and on behalf of the people of Mysuru for granting approval to MUDA to take up developmental works out of its own funds, he said he is also thankful to Urban Development Minister Byrathi Basavaraj and MUDA Chairman H.V. Rajeev, who is striving for the development of Mysuru.

Meanwhile, MUDA Chairman Rajeev too has thanked the Chief Minister for the Cabinet's sanction permitting MUDA to use its own funds for infrastructure improvement.

Rs. 19 crore grant for

Super-Speciality Hospital

Mysuru, June 22 (RK&BCT)- In anticipation of the more deadlier third wave of COVID-19, the Mysore Medical College and Research Institute (MMC&RI) has begun scaling up its infrastructure. Apart from operationalising the newly built hospitals with the help of Corporate Social Responsibility (CSR) initiatives of many companies and industries, the Institute is also procuring advanced machinery to equip them.

Dr. Nanjaraj

Interestingly, there seems to be a tearing hurry to equip the hospitals as the buildings that were kept vacant till the devastating second wave arrived are now being filled up with machineries.

Yesterday, the State Cabinet cleared a proposal from MMC &RI and increased the allocation to Rs. 154.44 crore from the earlier Rs. 135 crore with which the Princess Krishnajammanni Super-Speciality Hospital has been built behind Trauma Care Centre on KRS Road, Mysuru.

MYSORE MEDICAL COLLEGE & RESEARCH INSTITUTE
PRINCESS KRISHNAJAMMANNI SUPER SPECIALITY HOSPITAL, MYSURU
SUPER SPECIALITY HOSPITAL

Now with the additional Rs. 19.44 crore, an Advanced Medical Linear Accelerator (LINAC) for Oncology will be purchased.

Speaking to *Star of Mysore* this morning, MMC&RI Dean and Director Dr. C.P. Nanjaraj said that the machine would cost Rs. 16 crore and it has to be imported.

"We had sent a proposal to the State Government to purchase Medical Linear Accelerator to treat cancer patients and now the Cabinet has approved the same. Along with the machine, many other equipment too would be purchased with additional grants," he added.

(See GRANT on page 6)

Booze Up!

Liquor sales up despite just 4-hour shopping window

Mysuru, June 22 (RK&BCT)- Despite just 4-hour business (6 am - 10 am) during lockdown in Mysuru, the Excise Department has managed to increase sales by 10 to 15 percent.

The short purchase window period has not deterred anyone from purchasing their favourite booze. Even the Government does not seem to be feeling much of a pinch as regards revenue from liquor sales. Excise officials are happy to record a 15 percent increase in sales from March till date.

Speaking to *Star of Mysore* today, Excise DC (Mysuru Urban District) B. Madesh said that when compared to last year's total lockdown in March and the brief unlock period till June second week, Mysuru registered a 10 - 15 percent increase in liquor sales including beer and Indian Made Liquor.

"But when we compare these statistics with 2019 March-June, there is a dip of 20 to 25 percent sales in Mysuru. One of the main reasons for this is because liquor is not served in bars and restaurants or pubs due to lockdown. However, sales have not been affected much as takeaway has increased," he added.

State-wide, the Department raked in Rs. 4,500 crore in revenue from April 1 to June 15, which is 10 percent more than on normal days for that period. During 2020-2021, the targeted Excise revenue was Rs. 22,700 crore, which was achieved despite a 45-day strict lockdown and this year, the target is Rs. 24,580 crore.

MICA Institute and Maharaja Institute sign MoU

To facilitate cross stream learning (Commerce and Engineering)

Mysuru, June 22- MICA - Mysore Institute of Commerce and Arts and Maharaja Institute of Technology, Thandavapura (MITT), Mysuru, have entered into an MoU to exchange resources, faculty members, labs, to extend cooperation in students training and placements.

The MoU provides access to the MICA PU Science students to work in the engineering college labs and get hands-on experience in topics related to Artificial Intelligence, Machine Learning and Robotics and advanced learning in each of Engineering branches.

Both the institutions have agreed to further strengthen the

ties by exploring the possibilities of facilitating cross stream learning (Commerce and Engineering), which is the need of the hour. The MoU was signed by Syed Ishaq, Chairman MICA and Dr. Y.T. Krishnegowda, Principal and Management Trustee, MITT.

EDITOR'S BOTTOMLINE

MAKE MASKING WORK: ***States have begun unlocking in major ways. With daily new cases dipping to 58,583 on Saturday and the desperate need for commercial normalcy, there is a strong case for this. There's an equally strong case for not inviting another COVID disaster. Anecdotal evidence from urban centres suggest COVID-appropriate behaviour is being ignored as people throng markets, malls. This prompted Randeep Guleria, Director, AIIMS - Delhi and Head, National Task Force on COVID-19, to warn that the next wave may be just 12-16 weeks away.***

The best long-term solution against COVID is vaccination. But there is a massive mismatch between demand and supply at the moment. While the supply situation is expected to improve over the next three months, it won't be enough to vaccinate enough people to head off a third wave. Around 3.3 million people got a jab on Friday, a far cry from the 9.3 million a day needed to achieve herd immunity by September, according to GoI. Given the current pace of vaccination, the only immediate solution is to rigorously follow advice on masking.

Masking is mandatory in most of India. But enforcement is casual, increasing the risk of transmission in crowded public spaces. Instead of leaving enforcement almost entirely to overstretched Police forces, GoI and States can co-opt trade associations, mall owners and retailers' bodies. Retail trade of all kinds is among sectors worst hit by lockdowns. It is entirely in retailers' interests that they encourage customers to mask up. And Governments can add sting to this by mandating that markets and malls found to be hosting largely unmasked customers will be shut down. Retail trade can ill-afford another lockdown in 12-16 weeks. Governments can ill-afford another major COVID wave. Good reason for both parties to act.

Engineer creates self-balancing bike

Beijing: a Chinese engineer, after losing his balance and falling off his bicycle, dedicated his spare time in designing and building a bike that not only self-balances, but also detects and avoids obstacles.

The talented engineer named Zhi Hui Jun was fascinated by the self-driving bicycle built by scientists at Beijing Tsinghua University back in 2019 and after suffering a bicycle accident that left him with minor injuries to his face, the young engineer decided to build his own self-balancing bicycle.

Dedicating only his free time over a period of four months, Zhi Hui Jun managed to design and build an impressive self-balancing bicycle that uses an advanced system of accelerometers and gyroscopes capable of monitoring the bicycle's subtle movements and correcting them so that it never even tilts to one side.

Rabbits ride on sheep's back to escape floods

Dunedin: A farmer has photographed wild rabbits riding on the backs of sheep to escape rising floodwaters during heavy rain in New Zealand. Ferg Horne, 64, said he had never seen anything like it and snapped the pictures because he knew his family would never believe what he had witnessed.

Horne was trudging through the deluge to rescue a neighbour's 40 sheep from the floodwaters on Saturday at their South Island farm near Dunedin when he spotted some dark shapes from a distance. Then he saw the bedraggled wild rabbits hitching a ride - two atop one sheep and a third on another.

Horne said the rabbits had got wet but seemed fairly comfortable and relaxed atop their fleeced friends. He added the rabbits appeared to cling onto the wool with their paws and jumped off as they reached higher ground but managed to climb a hedge to safety.

HEALTH CAPSULE

Do not delay the cancer treatment.
Cancer can be treatable if it is detected in the early stage. Opt for regular checkup and get the mammogram and pap smear screening to identify the condition early.

Grant-in-aid for minorities

Mysuru, June 22- The Minority Welfare Department, under its minority welfare scheme, has invited applications from minority community organisations (Jain, Buddhist and Sikh communities) for issuing grant-in-aid to undertake repair work of the temples, community centres, orphanages and old age homes, for the year 2021-22.

For details, contact Minority Welfare Department, Maulana Azad Bhavan, near Shobha Garden, opposite Dandi Maramma Temple, Bengaluru-Mysuru Road, Mysuru or call Mob: 89510-87207 or 82177-43399, according to a press release.

REALLY...?

- ***The original erasers were bread. Moist bread: Until the 1770s, humanity's preferred way of erasing errant graphite marks relied on bread that had been de-crusted, moistened and balled up. While these erasers were cheap and plentiful, they had a distinct disadvantage: They were, you know, made of bread. They were susceptible, like all bread, to mold and rot. Talk about a kneaded eraser. Many erasers contain volcanic ash. And those small bands of metal that contain the plugs are called "ferrules."***

LAUGHTER THE BEST MEDICINE

A man asks a farmer near a field, "Sorry Sir, would you mind if I crossed your field instead of going around it? You see, I have to catch the 4:23 train."
The farmer says, "Sure, go right ahead. And if my bull sees you, you'll even catch the 4:11 one!!"

VOICE OF THE READER

Maharani's College in Old Mysore:
Grand-daughter's nostalgic memories

Sir,

I would like to thank Girija Madhavan and *Star of Mysore* for the article titled ***"Maharani's College in Old Mysore: A Nostalgic Recall"*** *(SOM* dated June 14, 2021).

It was very heart-warming to read about my grandmother, Dechamma.

As Maya Angelou once said, *"I've learned that people will forget what you said, people will forget what you did, but people will never forget how you made them feel."*

This path down the memory lane was exactly a reminder for that, how kindness will be remembered forever.

With a heavy-heart I would like to inform that Mrs. Dechamma (Mrs. Kokkalera Devakie Uthaiya) passed away 2 years ago to this month.

Girija Madhavan's friends Bollamma and Dechamma.

This article came at such a beautiful time for us to remember and honour her memory.

I hope this e-mail finds Girija in good health and I wish my gratefulness could be conveyed to her.

Flying Sikh, an epitome of struggle

Sir,

The sad demise of Milkha Singh has left a void in the sporting history of India. The legendary sprinter with the famed sobriquet 'Flying Sikh' is an epitome of struggle both in his life and death.

Milkha Singh

His month-long battle on the bed for life against fate is analogous to his struggle as a youngster to carve a niche for himself in social as well as athletic realm. He excelled against all odds and brought laurels to the nation at the international arena. He set a trend for umpteen others.

The nation proudly lauds the exemplary track record of the ace athlete and is an inspiring account which can ignite a spark in us to achieve something in life.

L&T Technology Services' CSR initiative

Deputy Chief Minister inaugurates Rural COVID Care Centre at Saragur

Deputy Chief Minister Dr. C.N. Ashwathnarayan seen with other dignitaries after inaugurating the Rural COVID Care Centre at Saragur in Mysuru district on Sunday.

Mysuru, June 22- L&T Technology Services (LTTS), a global leading pure-play engineering services company, has dedicated a rural COVID Care Centre (CCC) in Saragur, Mysuru, as part of its CSR initiative, in partnership with Swami Vivekananda Youth Movement (SVYM).

The CCC was inaugurated by Deputy Chief Minister Dr. C. N. Ashwathnarayan along with Amit Chadha,Chief Executive Officer & Managing Director of L&T Technology Services, who was present virtually from Washington D.C.

The CCC will serve a population of over three lakh tribals in the region. The 19-bed CCC has been built within 12 days using modular prefabricated technology. Each bed is equipped with oxygen supply, critical care medical equipment and all other necessary resources. The technology used here enables the safe management and care of patients and the infrastructure is expected to benefit the local population for up to 15 years.

Speaking on the occasion, Amit Chadha complimented the Government of Karnataka for its tireless efforts in containing the present pandemic and thanked Dr. Ashwathnarayan and other distinguished leaders for their statesmanship. He also lauded SVYM for transforming and uplifting the lives of the local rural population."

This initiative marks LTTS' commitment towards implementing pandemic relief measures in Karnataka such as providing isolation kits to the Mysuru City Corporation, donating two 24x7 free ICU ambulances for serving the underprivileged in Bengaluru, facilitating vaccination for people with physical disabilities, besides funding medical treatment for the economically weaker segments. The company is also partnering with NGOs to support children orphaned in this current wave.

The LTTS-SVYM alliance has, over the years, transformed over 500 tribal lives and livelihoods through technology adoption and employment generation initiatives.

District Minister S.T. Somashekar, H.D. Kote MLA Anil Chikkamadu, MUDA Chairman H.V. Rajeev, Deputy Commissioner Dr. Bagadi Gautham, ZP CEO A.M. Yogesh, SP R. Chethan, Swami Vivekananda Memorial Hospital Founder Dr. R. Balasubramaniam and others were present on the occasion along with K.N. Prabhakaran, Head of CSR and Rabi Rout, Centre Head of Mysuru, from L&T Technology Services.

CBSE to conduct exams
for students not satisfied with evaluation criteria in August

New Delhi, June 22- The Central Board of Secondary Examination (CBSE) will conduct improvement exam for students not satisfied with marks given on the basis of internal assessment from Aug. 15 to Sept. 15. The dates are tentative and depend on COVID-19 conditions, the Board said in an affidavit filed in the Supreme Court yesterday.

The Supreme Court was hearing a case on cancellation of Class 12 Board Exams for students who would be appearing for compartmental exams, NIOS and repeaters. Further, it was also decided that an opportunity will be offered to students in regular mode who are not satisfied with assessment and wish to appear for written exams.

Those who wish to appear for written exams will have to register online. The facility regarding this will be offered on CBSE's official website — *cbse.nic.in*

CBSE has already asked schools to start calculation process for preparing the result. The Board has asked each schools to constitute a Five-Member Result Committee to be headed by the Principal. The Committee, with the help of IT teams, will prepare and upload the results. A portal to upload marks will be activated today. The results will be released by July 31.

CBSE has already released the detailed assessment scheme to evaluate Class 12 students. For the evaluation, the Board will give maximum weightage to the 12th exams that includes pre-Boards, unit tests, or mid-terms. This consists of 80 marks and will be the criterion for theory assessment only.

For the practical exams, the Board has allocated 20 marks. In subjects, where theory is for 70 marks, the changes for practical marks will be made accordingly. No merit list will be released this year.

National Education Policy will help in transforming society: Minister

Mysuru, June 22 (DM)- Asserting that only good quality education can bring about effective changes in the society, Deputy Chief Minister Dr. C.M. Ashwathnarayan, who is also the Higher Education Minister, said that the National Education Policy (NEP-2020)is the best bet to achieve this.

He was speaking after inaugurating the Rural COVID Care Centre at Saragur taluk in Mysuru district on Sunday.

Contending that education helps in solving most of the problems that the society is facing today, Dr. Ashwathnarayan lauded Swami Vivekananda Hospital for its contribution to rural health.

Complimenting Mysuru District in-charge Minister S.T. Somashekar for giving a big push to the comprehensive growth of Mysuru district, he said that it is heartening to note that SVYM Founder-President Dr. R. Balasubramaniam has dedicated his entire life for public service.

Referring to the State's preparedness for the predicted third wave of the deadly COVID-19 pandemic, the Deputy CM, who also Heads the State's COVID Ministerial Task Force, said that necessary measures have been taken to tackle the dreaded virus. With the third wave expected to affect children the most, the Government has made all arrangements for treatment, hospitalisation and care of children, he stated.

Continuing, the Minister said 7,500 Medical, Nursing and Paramedical staff will be employed soon for tackling the predicted third wave. The Government is making consistent efforts to upgrade infrastructure in all Hospitals, including PHCs and Community Health Centres, as part of improving rural health service, he added.

ZP, TP phone-in on second and fourth Mondays

Mysuru, June 22- As the term of Zilla Panchayat (ZP) and Taluk Panchayat (TP) has already ended, Phone-in programme to hear grievances will be held on the second and fourth Mondays of every month, from 10 am to 11 am, till the polling is held. Public may contact Ph: 0821-2411349 to air their grievances.

'Oxygen Plant in District Hospital to be commissioned in a month'

Mysuru, June 22 (PM&DM)- Mysuru-Kodagu MP Pratap Simha visited the District Hospital premises on KRS Road here yesterday and inspected the site where the second Liquid Oxygen Generator Plant will be installed by NHAI (National Highways Authority of India) under a Central Government plan.

Speaking to *Star of Mysore*, MP Pratap Simha said that the NHAI is installing the 1,000 Litre Per Minute (LPM) Oxygen Generation Plant in the District Hospital premises at a cost of over Rs. 1 crore under a Central Government plan envisaged by Prime Minister Narendra Modi.

In all, 1,200 such Plants will be installed across the country in the wake of sudden surge in demand for Medical Oxygen driven by COVID-19 pandemic. This one is the second Plant to come up in the city after the first one at K.R. Hospital premises, which is set to be commissioned by the end of this month.

Maintaining that the District Hospital Oxygen Plant is likely to be installed between July 15 and 20, he said that he has inspected the site and received inputs from the authorities on the preparations being made.

Mysuru-Kodagu MP Pratap Simha inspecting the District Hospital premises on KRS Road in city yesterday where a Liquid Oxygen Generator Plant will be installed by NHAI under a Central Government Scheme.

Asserting that the two Oxygen Plants that will come up in the city is expected to cater to Oxygen needs of the district, he reiterated that both the Plants are being installed out of Central funds.

The MP further said that he will be visiting Kodagu also during which he will inspect the District Hospital at Madikeri and inspect the site where the 1,000 LPM Oxygen Plant will come up there too.

District Health Officer (DHO) Dr. K.H. Prasad, District Surgeon Dr. Rajeshwari, Mysore Medical College and Research Institute (MMC&RI) Dean and Director Dr. C.P. Nanjaraj, NHAI Project Director B.T. Sridhar and others were present during the MP's visit.

Complaints galore at ZP CEO's phone-in programme

Mysuru, June 22 (RKB&DM)- The hour-long phone-in programme of Mysuru Zilla Panchayat (ZP) Chief Executive Officer (CEO) A.M. Yogesh yesterday, saw a total of 23 complaints on a variety of issues including illegal issuance of 11b certificate in respect of lands, drainage problems in panchayat limits, queries on COVID vaccination and replenishment of water bodies, among others.

A.M. Yogesh

The phone-in programme was held at the old ZP Meeting Hall.

Lokesh, a resident of Hinkal, complained about what he called illegal issuance of 11b certificates in respect of lands coming under Hinkal Gram Panchayat (GP).

Alleging that the current Hinkal Panchayat Development Officer (PDO) has illegally issued more than 450 11b certificates, Lokesh said that following complaints, the authorities have ordered an enquiry regarding the issuance of 307 11b certificates. But despite an enquiry order, the PDO has continued to issue 11b certificates and this menace has become more rampant after Hinkal was brought under Hootagalli City Municipal Council (CMC) a few months ago, he claimed. CEO Yogesh assured to look into the matter.

H.S. Srikanta Prasad of Heggadahalli in Nanjangud taluk, complained about drainage water gushing his farmland. Claiming that his land is getting submerged by overflowing drainage waters more than often in recent days due to unplanned drainage system, he urged the CEO to take measures for addressing his problem.

He wanted the authorities to clear plastics and other wastes that have been dumped in Kabini Minor Canal that runs close to his farmland. He also wanted the Panchayat authorities to find a permanent solution to the village's sanitation problems.

The ZP CEO directed the authorities concerned to attend to the problem.

The programme received a number of enquiries on vaccination drives at Panchayat-level.

Yogesh said that the vaccination drive at Panchayat-level has begun from Monday and priority groups will be vaccinated first, following which all other people will be vaccinated during the drive.

Alleviating the fears about the vaccine especially among rural population, he asked all eligible persons to visit their nearest Public Health Centres (PHCs) and get vaccinated for their own health and safety.

Techie commits suicide for not getting Enfield bike

Mysuru, June 22 (MK&KS)- A 25-year-old techie, who was upset after his parents told him to wait for a few days to get him a new Royal Enfield bike, allegedly committed suicide by hanging self at his house in city on Monday.

The deceased techie is Ajay, a resident of Nrupatunga Road in Kuvempunagar here.

Ajay, who was working as a Software Engineer in Bengaluru, was working from his home in city following lockdown.

A few days ago, he had reportedly asked his parents to get him a new Royal Enfield bike for which his parents had told him to wait for a couple of days.

Upset over this, Ajay is said to have committed suicide when his family members had gone out of the house, according to Police.

Kuvempunagar Police, who have registered a case in this regard, are investigating.

Obituary

Kamalamma

Mysuru, June 22- Kamalamma (88), wife of late K. Ramachandra of Kambaiah and Sons and a resident of SBM Layout, Srirampura 2nd Stage, passed away this morning in city.

She leaves behind two daughters, son R. Harsha (retired State Bank of Mysore Manager) and grandchildren.

Last rites were performed at the foot of Chamundi Hill today.

Alhaja Nazeera Begum

Alhaja Nazeera Begum (68), retired High School teacher and wife of Abdul Hameed Khan, passed away in city. A resident of Udayagiri, she leaves behind her husband and a host of relatives.

Namaz-e-Janaza and burial took place at the Muslim Burial Ground near Tipu Circle today.

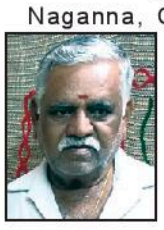
T. Subramanya

T. Subramanya, a resident of Janatanagar, passed away on Saturday in city.

He leaves behind two sons including Palali (Joint Secretary of Plumbing and Underground Drainage Workers Welfare Association), three daughters and grandchildren.

Last rites were performed at the foot of Chamundi Hill on Sunday afternoon, according to family sources.

Naganna



Naganna, Contractor (66) and a resident of Paduvarahalli, passed away yesterday in city.

He leaves behind his wife, one son and two daughters.

Last rites were held at his farm land in J.B. Saragur yesterday evening, according to family sources.

Mysore Bar Association fetes new District and Sessions Judge

Judge I. Raghunath, who assumed charge as the Principal District and Sessions Judge in city, was felicitated by Mysore Bar Association yesterday. He is seen with Additional District Judge Saraswathi Sunkanur, Mysore Bar Association President S. Anand Kumar, Secretary B. Shivanna and Member Timmachar.

More than 1,000 deaths in Mysuru in May: MP Pratap Simha

'Truth will come out if crematoriums, burial grounds of all faiths are audited'

Mysuru, June 22 (MTY&BCT)- The District Administration has fudged the data on deaths in Mysuru and has hidden many facts from the people of Mysuru from March this year to June first week, alleged Mysuru-Kodagu MP Pratap Simha, indirectly targeting the previous Deputy Commissioner Rohini Sindhuri. The MP, however, did not mention her name.

"It is a fact that the District Administration hid the actual death figures and the truth will come out if the number of cremations and burials of dead bodies of people from all religious faiths is taken a count of," Pratap Simha told reporters in city yesterday.

"I had raised a voice against COVID management in Mysuru and had asked the Administration to focus on rural areas and

Pratap Simha

also to bring down death figures. Now people have begun to understand my words. As no measures were taken then, the positivity rate in Mysuru is above 10 percent," he said and added that he had suggested certain measures to the DC out of his concern to Mysuru and not due to anything else.

"The District Administration has failed to control COVID cases and in May 2021 alone, more than 1,000 people lost their lives. The Government must place the actual death figures from March to June first week after taking data from all crematoriums and burial grounds. Now the entire Administration headed by DC Dr. Bagadi Gautham is striving to bring down the positivity rate to less than five percent," he said.

Pratap Simha said that already people are scared about the devastating impact of the second wave and measures will be taken to combat the third wave. "The focus will be on children and already suggestions have been taken from paediatricians where it has been suggested to reserve a 500-bed facility for children, neonatal ventilators and many child ventilators. Preparations are being made to set up the infrastructure," he said.

SWR introduces online payment system for freight charges in Hubballi Division

Hubballi, June 22 (UNI)- The Hubballi Division of the South Western Railway (SWR) has, for the first time, introduced online payment system for freight charges in the division.

In a press release on Sunday, it stated that with this, the customers can now pay online through the Freight Business Development Portal of the Freight Operations information System (FOIS) using the State Bank of India's payment gateway.

According to the statement, the freight payment could be made through net banking, credit card, debit card or any Unified Payments Interface (UPI). Railway has taken a number of digital initiatives such as Online Indenting, electronic transmission of Railway Receipts etc., for the convenience of its freight customers.

Earlier, freight customers had to make the payment through a Demand Draft (DD) or a banker's cheque. This payment was to be done during working day and working hours of the Bank.

Now, with the introduction of this online payment system, payments can be made 24x7, even during holidays. The logistics for procuring DD, bringing DD and handing over of DD can be avoided with the introduction of this system.

For Railways, payment can be received instantaneously and sending DD for realisation and other processes can be avoided, the press release added.

Arvind Malkhede, Divisional Railway Manager of Hubballi Division, said that the successful implementation of online payment system for freight will help to make the process of payment of freight charges simpler, convenient, quicker and transparent. Ease of doing business gets a major boost in the Rail sector with the introduction of online payment system for freight charges.

He requested the freight customers to make use of this facility for a hassle-free transportation of goods.

Exempt journalists from toll tax: MDJA

Memorandum submitted to MP Pratap Simha

Mysuru June 22 (RK&BCT)- The Mysuru District Journalist Association (MDJA) has written to Mysuru-Kodagu MP Pratap Simha to take measures to give free access to journalists at all toll plazas in the district to facilitate their unhindered movement.

In a memorandum submitted to the MP, the MDJA office-bearers have requested him to use his good offices and convince the National Highways Authority if India (NHAI) — that maintains the toll plazas — to consider identity cards of media house or of the MDJA to exempt journalists from paying the toll for their vehicles.

These identity cards that have already been issued by the media houses and the MDJA must be considered valid and toll exemption must be given to journalists who are in possession of the card, the memorandum stated.

MDJA General Secretary M. Subramanya said that journalists travel across the city and district on professional assignments and there are many journalists hailing from rural areas working in Mysuru. They should be exempted from paying toll.

MDJA President S.T. Ravikumar said that the MP has promised to take up the matter with NHAI authorities and would hand over the memorandum to the toll plaza management through the NHAI authorities.

Fake post

Meanwhile some days ago, there were many social media posts that claimed that journalists will be exempted from paying toll tax at every toll plaza in the country for which ID proof will be needed.

Dismissing the claims, the Government's Press Information Bureau (PIB) Fact Check wing said that the message was fake.

It further stated that no such announcement has been made by the Ministry of Road Transport and Highways. The PIB launched a fact-checking unit to identify misinformation related to the Government's policies and schemes that are circulating on various social media platforms.

Citing piling losses, Mysuru hoteliers demand unlock

Mysuru, June 22 (RK&BCT)- Having received little to no footfall since March last year, hoteliers in Mysuru have urged the State Government to ease unlock restrictions. It is not fair to keep Mysuru under continued curbs and a chance should be given to them to survive, they said.

Submitting a memorandum to Mysuru-Kodagu MP Pratap Simha, the Mysuru Hotel Owners Association at their office at Krishnamurthypuram yesterday, the hoteliers, led by their President C. Narayanagowda wished the MP on his birthday and urged him to impress upon the Government to relax restrictions and allow them to operate, following the norms.

The hoteliers apprised the MP as to how the hotel and hospitality industry has collapsed without business since the last one-and-a-half years and if these restrictions continue, it would be difficult for the industry and its stakeholders even to survive.

At a time when every other hotels in other districts are allowed to open up in the unlock process, keeping Mysuru out of this is not right as Mysuru depends entirely on tourism revenue and there are many allied sectors that depend on tourism revenue, Narayanagowda stated appealing the MP to do the needful.

He expressed fear that as Bengaluru has been kept out of the purview of lockdown, there is a danger of many hotel workers migrating to Bengaluru in search of jobs, putting Mysuru hotel industry in further jeopardy.

Responding to the request, the MP told the hoteliers that he will bring the issue to the notice of Chief Minister B.S. Yediyurappa and Mysuru District Minister S.T. Somashekar.

Over 2.14 crore COVID vaccine doses still available with States: Health Ministry

New Delhi, June 22 (UNI)- More than 2.14 crore (2,14,90,297) COVID-19 vaccine doses are still available with the States and Union Territories, the Ministry of Health and Family Welfare said today.

As many as 33,80,590 more will be received by them within the next three days, it added.

So far, the Centre has provided 29.35 crore (29,35,04,820) doses to the States. Of this, the total consumption, including wastages, is 27,20,14,523 doses, as per data available this morning.

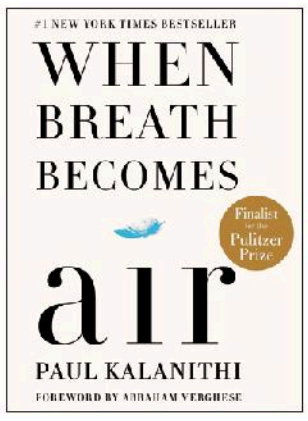
The country has administered 86,16,373 vaccine doses in the past day, highest ever single day vaccination achieved in the world so far, raising the total vaccination count to 28,87,66,201.

Abracadabra... Abracadabra...

By K.B. Ganapathy

Life of a Doctor, his Death and a Book

When a friend, who has never sent me a book nor discussed books with me, sends a book, I am curious. I am curious also because I had already heard about this book and was about to order. P.V. Giri, Chairman of Siddharta Group, could not have sent this book a day sooner. The title of the book is also rather curious — *"When Breath Becomes Air"* by Neurosurgeon Dr. Paul Kalanithi.



Front cover of the book

Late Dr. Paul Kalanithi

Son of an immigrant-American medical doctor, Christian, with the name suggesting India or Sri Lanka connections, the book is a memoir steeped in melancholia.

The contents deal with the author's early life, education, tottering marriage, lung cancer, fathering a child per alternative medical method and death narrated in a way that shows his scholarship in English language and the rhetoric. I was also curious about the choice of the title given to the book. It was an apt title and taken from a book *"Caelica 83"* and quoted here in the opening page. It reads:

"You that seek what life is in death,

Now find it air that once was breath."

So manipulate the sentence and you get "when breath becomes air." This answered my curiosity.

I am taught to be curious as a journalist, to be a good journalist. So I went about satisfying my curiosity about the book by going through it page by page from the beginning to the end. Usually we find the Prologue and the Epilogue of a book written by the author himself. But here I found, the Prologue written by the author Dr. Paul Kalanithi and the Epilogue by his wife, Dr. Lucy Kalanithi. The reason is obvious. The author died... aged 37.

As I began to read the book, I could not help remembering two books, very popular and best-sellers. One was *"The Final Diagnosis"* by Arthur Hailey and another *"Love Story"* by Erich Segal. First one dealt with the tragedy that might result following an error in Pathology Lab which would lead to faulty diagnosis and wrong treatment etc. A story through the lens of a Pathology Lab.

The second book, *"Love Story"* gets you hooked with its opening para — *"What can you say about a twenty-five-year-old girl who died? That she was beautiful. And brilliant. That she loved Mozart and Bach. And the Beatles. And me."*

I think, every value and emotion of human life is packed in this small opening paragraph of the novel. And she dies of cancer, leukaemia. Like Dr. Paul Kalanithi, who also dies of cancer, lung cancer stage IV.

The book is about a couple who find the world around them falling apart because of the lung cancer of the protagonist, Dr. Paul Kalanithi.

Reading the book, I got the feeling that destiny and luck play a major role in our life, health and death. About six months before he went to see his Primary Care Doctor, he had started **losing weight** and having ferocious **back pain.** He was 35 years old and a medical doctor himself and there was delay in getting diagnosed! The Primary Care Doctor suspects cancer. Then, a few weeks later, bouts of **severe chest pain** and developed a **persistent cough.** While he wished it was not C, his wife Lucy was upset he was not talking to her about it. Simultaneously, she was considering the state of their marriage. Hard to imagine a situation like this at a time he was undergoing the trauma about his health.

It was an issue of expectations from their relationship as a couple. Reader would be shocked or surprised to read that he was attending to surgery as a Neurosurgeon even when he was under the agony of pain and fatigue. When finally cancer was confirmed, his wife promises — *"I will never leave you."* From here the tale of his life with cancer begins, memory going back to his school days, college days, pursuit of study in English literature and finally becoming a Neurosurgeon of distinction — ready to arrive at his promised land. But alas...

His, nay Lucy's also, expectation to have a child and the efforts they make are beautifully delineated with deep emotion. And finally they get a healthy baby girl, named Elizabeth Acadia, nicknamed Cady. The book is dedicated to her, most aptly.

The book has many information about the diagnosis, the nature of disease and treatment. All lessons to learn both by the patients and the medical fraternity. It is difficult to imagine how he could continue to work even when he was physically too weak with deteriorating health condition. Well, will it NOT endanger the patient under his scalpel?

At one point, he told his wife to remarry. But instead they go for a child as mentioned earlier. It is a disturbing book to read, but a good book teaching lessons of our life to be lived while alive.

When he realised that he had been diagnosed with a terminal illness he asks an existential question:

Why me?

The answer he himself gives philosophically is:

Why *not* me?

Dr. Paul writes about his and Lucy's visit to Church on a Sunday with his parents. There was Pastor's Scripture reading that made him chuckle because "it featured a frustrated Jesus whose metaphorical language receives literal interpretation from his followers." He then quotes examples from the Bible. It is very interesting (page 167). Reading this, I remembered the answer given by Jesus to a question:

Are you the King of Jews?

Jesus says: You say so.

A subterfuge, rigmarole? We do not know; but there was no straight answer, yes or no. Let it be.

Writing further on the subject, he says that his notion of God and Jesus had grown tenuous. The Ockham's razor cut the faithful free from blind faith. Apparently, Dr. Paul's understanding of God and blind faith have been subjected to Ockham's razor. **"There is no proof of God; therefore, it is unreasonable to *believe* in God."** Final words?

Anyway, as he himself quotes about human fate, at the end it is fate that plays out. Humans are like "flies to wanton boys" or as "no amount of effort can help Oedipus and his parents escape their fate."

Dr. Paul died on March 9, 2015, eight months after the birth of Cady, his daughter. His last days were written by his wife Dr. Lucy Kalanithi and were melancholic to read. Everyone around her young husband, with limited life expectancy, was helpless. It was an agonising scene.

After he was diagnosed of terminal illness, he had one desire, that was to save his marriage — that was fulfilled. Next desire was to have a child — that too was fulfilled. And his dying-desire was to ensure the publication of this book — that desire too was fulfilled.

In his deathbed, Paul's breath grew more quiet... *"his lips apart and eyes closed, Paul inhaled and then released one last, deep, final breath."* **The breath became air.** Body buried. *"Dust thou art, and unto dust shalt thou return."* It was so.

A must-read book for all doctors and those connected with medical practice, science and technology.

Rs. 19 crore grant

(Continued from page 1)

For the record, Medical Linear Accelerator customises high energy X-rays or electrons to conform to a tumour's shape and destroy cancer cells while sparing surrounding normal tissue.

The 220-bed Super-Speciality Hospital, estimated to have been built at a cost of Rs. 135 crore, has now been converted to COVID Hospital and is being run under PPP model where the District Administration has joined hands with Automotive Axles-Kalyani Meritor HVS India (P) Ltd., Ashakirana Charitable Trust and Gopala Gowda Shanthaveri Memorial Hospital.

While Automotive Axles-Kalyani Meritor HVS India is sponsoring medical and critical care equipment, Ashakirana and Gopala Gowda Hospital are jointly providing medical care facilities and manpower, logistic supplies management and also overall management of healthcare unit.

MUDA fund

(Continued from page 1)

Rajeev pointed out that focus will be on infrastructure development in MUDA-developed old Layouts such as Bannimantap, Brindavan Extension, J.P. Nagar, Metagalli, Vijayanagar 1st & 2nd Stages, Alanahalli and Hebbal, which have already been handed over to MCC and relatively new Layouts such as Vijayanagar 3rd & 4th Stages, Vasanthnagar, Lal Bahadur Shastri Nagar, Shanthaveri Gopala Gowda Nagar, Lalitadrinagar (North & South), Devanur 3rd Stage, Hanchya-Sathagalli Layout, Nachanahalli-Koppaluru 3rd Stage and R.T. Nagar.

Maintaining that the Cabinet has also approved developmental works to be taken up in villages such as Belavatta, Maratikyathanahalli and Kadakola, which now come under MUDA limits, Rajeev asserted that MUDA has taken a firm step forward in fulfilling the long-standing aspirations of Mysureans.

Vaccination Drive at Cauvery Hospital

Mysuru, June 22- Cauvery Heart & Multi-Speciality Hospital, Siddarthanagar, started COVID Vaccination Drive at the hospital premises yesterday for 18 years and above age groups.

Covishield will be administered on all working days between 10 am and 5 pm. Vaccination charges is Rs. 780 per dose as per the Govt's directive.

Walk-in to the hospital or register through CoWIN Portal Aarogya Setu App. Carry your CoWIN registered mobile number and reference ID for validation. For details, call Ph: 0821-2472424 or Mob: 98446-98446.

Swimming pool construction at DC Bungalow

RC submits probe report; says pool of no public interest

Mysuru, June 22 (RK&BCT)- Mysuru Regional Commissioner (RC) Dr. G.C. Prakash, who was tasked by the State Government to conduct an inquiry into the construction of a swimming pool and the indoor gymnasium in the premises of the official residence of the DC, has submitted his report to the State Government.

The undated report that was accessible to the media this morning stated that the swimming pool and the gymnasium built inside 'Jala Sannidhi' does not have any public interest. "After scrutinising documents related to the constructions, it has come to light that an estimate of Rs. 32,55,131.49 has been made to construct the swimming pool and the estimate has not been approved by technical committee or the Public Works Department," the officer has stated.

Further, the pool has been constructed without prior administrative approval and there is no executive order that is related to the construction and there are no documents to prove the official understanding between any departments, the RC stated.

No prior approval

"As per the gazette notification of Urban Development Department of 21-04-2020, all works that have to be undertaken at heritage sites have to carry approval from Heritage Conservation Committee and such works must be bound by Heritage Regulations. But in this case, no such approvals have been taken. Also, the swimming pool that has been constructed inside the DC's residence will be of no use to any public," Dr. Prakash has stated.

Other main points mentioned by the RC are: The swimming pool has been constructed by Nirmithi Kendra and prior approval has not been taken after placing the proposal before any meeting. Approvals have been obtained only by Nirmithi Kendra Director and the DC. The proposal of renovating the DC's residence has been placed before the annual general body meeting of the Nirmithi Kendra on 02-03-2021 and funds have been cleared after the pool has been constructed, the RC observed.

As per the initial proposal made by Nirmithi Kendra, Rs. 32,55,131 was allotted for the pool and Rs. 28,72,212 has been spent and the works were undertaken from 30-12-2020 till 26-02-2021, the officer noted.

"It has come to light that instead of constructing the swimming pool at places (Govt. land or at Taluk headquarters) that are easily accessible to public, the pool has been constructed inside the official residence of the DC without the approval from the Department of Archaeology, Heritage and Museums," the RC has stated in his report.

Mining dust-laden tipper topples on KRS Road

Driver sustains leg fracture; Lucky escape for motorists

Srirangapatna, June 22 (Vinay Karekura&KS)- A tipper, filled with mining dust, toppled on Mysuru-Bengaluru Highway at Srirangapatna, near the Fire Station, this morning, spilling the dust on the highway. The accident has resulted in the driver sustaining fracture to his leg, while a few motorists have sustained minor injuries.

It is learnt that the mining dust laden tipper vehicle (KA-09-B-2759), was proceeding from T.M. Hosur mining site towards Mysuru, when the accident took place. According to the driver, the driver of a truck carrying size stones, which was moving ahead of his vehicles applied sudden brakes, resulting in him (tipper driver) losing control of the vehicle, which climbed the road divider, hit an electric pole and fell on the highway spilling the dust on the road. The tipper driver sustained a fracture to his leg.

As the accident took place very close to the Fire Station, Fire and Emergency Services personnel, who rushed to the spot, rescued the tipper driver and got him admitted to Srirangapatna Taluk Hospital. Traffic on both sides of the Highway was disrupted for some time as vehicles had queued up for about a kilometre.

Srirangapatna Police visited the accident spot and also visited the Taluk Hospital and enquired the health of the driver. No case was registered, when we went to the Press at 1.15 pm.

Government orders probe on works at DC's residence

Investigation on renovation initiated based on MLA S.R. Mahesh's complaint

Mysuru, June 22 (RK&BCT)- The State Government has ordered a probe into the reno-vation work taken up at 'Jala Sannidhi', the official residence of the DC of Mysuru, a heritage structure. Principal Secretary, Revenue Department, Bengaluru, M. Sumithra has written to Regional Commissioner (RC) Dr. G.C. Prakash in this regard on June 18.

Acting on a complaint lodged by former Minister and JD(S) MLA S.R. Mahesh against the renovation work at 'Jala Sannidhi' during the tenure of IAS Officer Rohini Sindhuri as the DC, the Principal Secretary has asked the RC to inquire into the claim that the renovation work was taken up without the approval of the Heritage Conservation Committee.

The RC has been asked to submit a report on the matter to the Govt. within seven days. In his letter to Chief Minister B.S. Yediyurappa on June 5, MLA Mahesh had alleged that the official residence of DC is a heritage building and Rohini Sindhuri had renovated the structure without receiving prerequisite permission from the Heritage Conservation Committee and Rs. 16.35 lakh has been spent from Nirmithi Kendra on the renovation and repairing the floor with vitrified tiles, without any prior approval.

The probe against renovation work at Jala Sannidhi follows another inquiry ordered by the State Government against the construction of a swimming pool and a gym inside the official residence of the DC and here to, the RC was asked to investigate.

The MLA had stated in his letter, "When the DC wrote to the office of Executive Engineer, PWD, Special Wing, Mysuru, to take up the works, the officer approved the works with mandatory stipulations for Rs. 16.35 lakh. But the DC, being the Chairman of Heritage Conservation Committee, had directed PWD to release the amount to Nirmithi Kendra. But, PWD authorities have not released the amount till date."

International Day of Yoga: 'Be with Yoga, Be at Home'

DRM exhorts Railway employees to practice Yoga regularly

Mysuru, June 22- South Western Railway (SWR), Mysuru Division, Divisional Railway Manager (DRM) Rahul Agarwal inaugurated the International Day of Yoga (IDY) yesterday with the theme 'Be with Yoga, Be at Home' by lighting the lamp and garlanding the photograph of Patanjali Maharishi at the Chamundi Officer's Club in city.

The televised programme of the Ministry of AYUSH, Government of India, was organised through projector which commenced with address by Minister of State (AYUSH Ministry) followed by the address of the Prime Minister and the common yoga protocol.

Speaking on the occasion, Rahul Agarwal outlined the benefits of Yoga and exhorted the Railway employees and their family members to regularly practice Yoga. He explained in detail the benefits of practicing Yoga and its relevance in today's scenario.

Additional Divisional Railway Manager A. Devasahayam, Additional Divisional Railway Manager (Infra & Operations) B. Srinivasulu, few officers and staff attended the function.

In addition, Mysuru Division organised a photography competition to promote enthusiasm among staff a photography (Best Yoga Pose) among Non-Gazetted Staff. As part of the Yoga campaign, Common Yoga Protocol video and e-brochure has been uploaded in SWR Mysuru Division website and Facebook.

The Day was observed in a similar fashion at various Stations and depots over Mysuru Division of South Western Railway, according to a press release from Dr. Manjunath Kanamadi, Senior Divisional Commercial Manager.

Music Varsity celebrates World Music Day and IDY

Mysuru, June 22 (MK&SD)- As part of World Music Day celebrations, Dr. Gangubai Hangal Music and Performing Arts University had organised special virtual lectures on music yesterday.

Earlier, speaking after inaugurating the programme, Music Varsity Vice-Chancellor (VC) Dr. Nagesh V. Bettakote said, "World Music Day is now celebrated in over 120 countries. Over the last seven years, on this same day, we have been celebrating World Yoga Day. Both music and Yoga are said to have healing qualities, which are an integral part of our Indian culture."

Later, Vidwan Dr. R.K. Padmanabha of Bengaluru, who was the chief guest for the programme, delivered a special lecture on the topic 'Sangeetha Dhare,' followed by Hindustani musician Dr. Dattatreya Velankar on the topic 'Sangeetha-Nadayoga.'

Earlier in the day, International Day of Yoga (IDY) was also celebrated at Music Varsity premises. Music Varsity Finance Officer Renukamba, Srilatha, Shivakumar and others were present.

Webinar on 'Yoga, Health and Lifestyle'

As a prelude to IDY, KSGH Music and Performing Arts University, in association with UGC and IUCYS, successfully conducted four days webinar relating to Yoga, Health and Lifestyle from June 17 to 20. During the occasion, Yoga masters, instructors and subject experts presented Yoga demonstrations.

Dr. Subrahmanya Piloor, K.N. Ramesh, Prof. Dominic, Karibasappa, Dr. N.J. Patil, Subrahmanya Bhatt, Dr. B.C. Ashwini and Rajeshwari were the resource persons.

Prof. Avinash Chandra Pandey, Director of Inter University Accelerator Centre and IUCYS, delivered the keynote address and acknowledged the importance of Yogic Science in present days.

The President of the programme, Prof. Nagesh V. Bettakotte, promised to organise such programmes and incorporate them into the curriculum of academic studies in the near future, highlighting the importance of health training for students and society.

Hundreds of students, faculty and staff participated in the event. The programme was attended by Finance Officer Renuka, Coordinators Ravikumar and Subramanya and NSS Coordinator Dr. Dundayya.

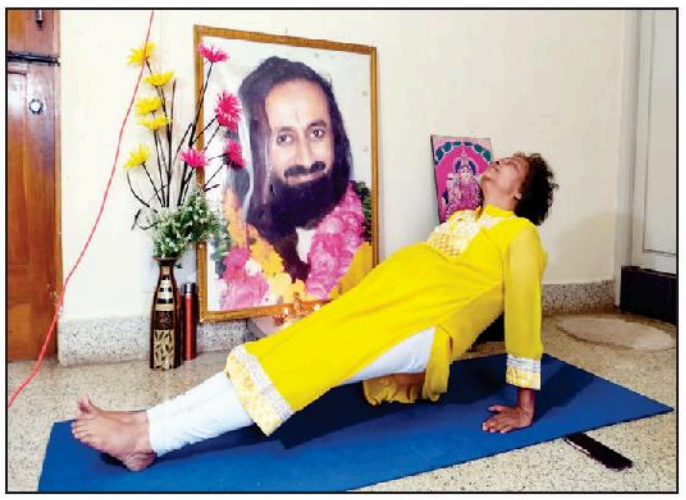
Yoga Guru B.N.S. Iyengar feted

Mysuru, June 22 (PM&SD)- Marking IDY, member of Mysuru Urban Development Authority (MUDA) Naveen Kumar felicitated Yoga Guru B.N.S. Iyengar at his residence on Veene Sheshanna Road in K.R. Mohalla here yesterday.

"Even at the age of 94, Yoga Guru B.N.S. Iyengar has been practicing Yoga every day. He has been a recipient of doctorate degree from an International University. Over the last 70 years, he has taught Yoga to thousands of students," Naveen Kumar said.

Leaders Manjunath, Harish Naidu, Naveen, Manu and others were present.

IDY at Art of Living, Mysuru



As part of IDY celebrations, Sri Ravishankar Guruji's Art of Living in Mysuru held online Yoga Session by senior faculty and certified Yoga Teacher Naganandini.

Columbia Asia holds robust Yoga Session

Mysuru, June 22- On the occasion of the IDY, which has gained huge prominence on the global calendar, the Columbia Asia Hospitals, Mysuru, a unit of Manipal Hospitals, had organised a successful online Yoga session at the hospital yesterday.

The event focused on the art of powering physical and mental well-being, especially relevant during the pandemic.

The session was organised over Google Meet from 7 am to 8 am, with people's participation from all walks of life.

A total of 52 participants attended the session. Supriya Dutta, an ardent follower of Yoga, led the sessions which underlined the importance of practicing Yoga to help improve immunity.

Speaking on the initiative, Dr. Gautam Das, General Manager at Columbia Asia Hospitals, Mysuru, said: "India is the home of Yoga. The goodness of this ancient practice, which provides a holistic approach to wellness, is often underrated. At Columbia Asia Hospitals, we believe in the power of Yoga and its influence on the body and mind."

"The online Yoga session was our effort to spread positivity during the stressful time presented by the pandemic, drawing people towards this traditional method of deriving energy by focusing on not just the physical aspects but also the mental elements," said Dr. Gautam, who conceptualised the event.

"The COVID-19 pandemic and associated lockdown processes have put immense pressure on physical and psychological well-being of people. Yoga can be a powerful tool that help people cope with the uncertainty and loneliness of lockdown, as well as uphold their physical well-being," said Supriya Dutta, a renowned expert in Yoga, wellness and meditation.

Get vaccinated to protect yourself from COVID-19: Yaduveer

Titular head of the erstwhile royal family Yaduveer Krishnadatta Chamaraja Wadiyar (fourth from right) seen after launching the free vaccination drive at JSS Public School in Siddarthanagar here yesterday as (from left) Corporator Dr. Roopa, MCC Commissioner G. Lakshmikantha Reddy, MUDA Chairman H.V. Rajeev, DC Dr. Bagadi Gautham, MLA S.A. Ramdas, Ganjifa artist Ragupathi Bhat and others look on.

Mysuru, June 22 (MTY&SSV)- Titular head of the erstwhile Mysore royal family Yaduveer Krishnadatta Chamaraja Wadiyar has opined that vaccination was the only weapon presently available to fight against the COVID-19 pandemic. He was speaking after inaugurating a free vaccination drive for people in the age group of 18 years to 44 years at JSS Public School in Siddarthanagar here yesterday. The drive was launched with the vaccination of N. Harshita and Pooja Singh by a nurse.

Yaduveer said that the fear of second wave of COVID-19 was still in front of their eyes and added that everyone must join hands together to check the spread of pandemic. "Vaccination is the only safe option available now to fight against the virus and citizens must get vaccinated at the earliest to protect themselves from the contagion," he said.

He said that Mysuru has contributed a lot for the promotion of yoga and the city has a special bonding with it. Of late, yoga was seen as a modern lifestyle. In fact, this helps in maintaining both the mental and physical health in the current situation, he added.

Deputy Commissioner Dr. Bagadi Gautham said they have two options before them, first one is getting COVID test done and the second one is getting vaccinated. It was heartening to note that the vaccination drive had been taken on a big scale in K.R. Constituency for more coverage of people. Steps will be taken for vaccinating every person in the district, he added.

Mysuru City Corporation Commissioner G. Lakshmikantha Reddy complimented MLA Ramdas for holding a mega COVID-19 testing camp in all polling booths in his Constituency for early detection and treatment of patients. Similarly, a vaccination drive was organised for the inoculation of 18 years plus category population. The vaccination drive will be extended to all the 65 wards in City depending upon the availability of vaccine.

Earlier, in his introductory speech, Ramdas said that as many as 62,000 persons have got tested in seven PHCs in his Constituency and 47,000 people have been vaccinated. The citizens had been asked to register their names for vaccination on June 16 and 17 and a record number of people had registered for free vaccination. "We have plans to vaccinate all the people in my Constituency before June 30," he added.

MUDA Chairman H.V. Rajeev said that people were scared in the current second wave of pandemic and it was happy to note that a special drive had been launched. Many families lost its bread earners due to COVID-19, he added.

Raghupati Bhat, an international Ganjifa artist, Corporators Dr. Roopa and B.V. Manjunath, corporators, BJP K.R. Constituency President M. Vadivelu, General Secretary J. Nagendrakumar, Srinivas, M.P. Rajesh, Noor Fatima and others were present.

Post-Graduate Medical students demand reduction in academic fees

Warn of Statewide stir

Mysuru, June 22 (MK&DM)- The Karnataka Resident Doctors Association has urged the Government to reduce academic fee of Post-Graduate Medical students (2020-21) in the wake of COVID crisis.

In a press release, the Association maintained that Karnataka is charging more academic fees than any other State for PG Medical students.

Pointing out that PG students, apart from their academic activities, are also rendering medical duties at hospitals, it said that the Government must reduce fees in the better interests of medical service.

The Association warned of staging a Statewide stir from Monday, if the demand for fee reduction is ignored by the Government.

Student issues: AIDSO to observe student protest day tomorrow

Mysuru, June 22 (RKB&DM)- Strongly opposing the Government's decision to conduct previous Semester exams for Degree, Engineering, Diploma and PG Degree students amid the COVID crisis as unscientific and illogical, the All India Democratic Students Organisation (AIDSO) will stage a Statewide student protest day tomorrow (June 23) against the Government's decision and over other student issues.

AIDSO State Secretary B.J. Subash said that a recent online survey has shown that a majority of students were opposed to online exams of previous semester.

Pointing out that even semester online classes have already begun, he said that internal assessment tests too have been conducted in most colleges. In this backdrop the Government's decision to hold the previous semester exams (Odd) amidst the ongoing online classes for the running semester, is nothing but arbitrary, unscientific and illogical.

As such, the students are forced to observe a student protest day tomorrow (June 23) in order to draw the attention of the Government to their plight, Subash said and added that the protest will also highlight other student issues.

Coding Academy and Incubation Centre at Mysore University soon: MP

Mysuru, June 22 (MTY&SSV)- For the first time, the State Government has given its assent to start the Coding Academy and Incubation Centre at University of Mysore, said Mysuru-Kodagu MP Pratap Simha.

He was speaking after inaugurating a special vaccination drive for Varsity employees at Senate Bhavan in city yesterday.

Simha said that on the lines of Coding and Incubation Centre in France, a similar Centre is planned at Mysore University for which the State Government has shown the green signal. However, this Centre requires a spacious building measuring 10,000 sq ft. The University has come forward to handover the first floor of Senate Bhavan for this purpose and necessary steps will be taken soon for the establishment of this Centre, he added.

The MP said that most of the students come to the Varsity for a bright future and they required not only education but also training in employment and skill development. The proposed Coding Academy and Incubation Centre will play an important role in this regard, he said. "The ten-lane Highway project between Mysuru and Bengaluru is expected to be complete by 2022 and this will bring more industries to Mysuru, which in turn will create job opportunities for local youths," he added.

A staff of the University of Mysore being administered vaccine during the special vaccination drive for Varsity employees at Senate Bhavan in city yesterday as MP Pratap Simha, Varsity Vice-Chancellor Prof. G. Hemantha Kumar, Registrar Prof. R. Shivappa and others look on.

UoM Vice-Chancellor Prof. G. Hemantha Kumar said the Varsity has plans to vaccinate over 1,000 of its employees. Deputy Chief Minister and Higher Education Minister Dr. C.N. Ashwathnarayan had given instructions for vaccinating all the staff and students of the University. This became possible due to the co-operation of MP Pratap Simha, he added.

He said that it was a matter of prestige that the Coding and the Incubation Centre will be started in the Varsity and added that the Centre will start functioning from the first floor of Senate Bhavan in the next six months. "Imparting education to students was not sufficient as they need to be shown the way of life. Imparting training to students in their areas of interest will make them better employable," he added.

Registrar Prof. R. Shivappa, Syndicate member E.C. Ningarajegowda, Chief Medical Officer of University Health Centre Dr. Basavaraj, DHO Dr. K.H. Prasad, Nodal Officer for COVID-19 Vaccination Dr. L. Ravi and others were present.

WORD OF THE DAY

Prothalamion

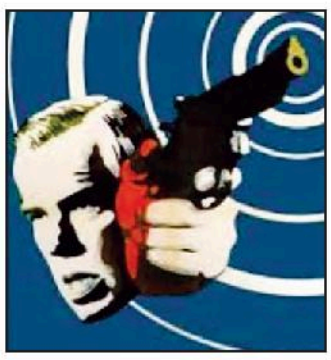
Pronunciation: proh-thuh-ley-mee-on, -uhn.
Meaning: A song or poem written to celebrate a marriage.
Origin: Prothalamion is modelled on epithalamion "a song or poem in honor of a bride and bridegroom." Epithalamion is the neuter singular of the Greek adjective epithalámios "bridal, nuptial," literally "at the thalamus," that is, the inner chamber at the rear of a house, woman's room, bedroom, storeroom. Epithalamia (plural of epithalamion) were traditional features in Greek weddings and were therefore a very ancient custom. The epithalamia of the Lesbian lyric poet Sappho, the Athenian comic playwright Aristophanes, and the tragedian Euripides were famous. Edmund Spenser coined prothalamion in 1597, apparently intending his coinage to mean "a song or poem celebrating an upcoming wedding," the Greek prefix pro— here meaning "before in time," not "before in space."
Example: Every wolf in the world now howled a prothalamion outside the window as she freely gave the kiss she owed him. —Angela Carter, "The Company Of Wolves," The Bloody Chamber And Other Stories, 1979

THE ODD WORD

Pachyglossal
Thick-tongued.

PHRASE OF THE DAY

Point-Blank



Meaning: To explicitly address an issue in a blunt, direct manner, without softening the speech or using subtlety. You can use the idiom 'point-blank' to describe a very direct style of speech.
Origin: The origin of this word goes back to French archery terminology in the Late Middle Ages. Back then, archery targets were usually white. Point was used as a verb and blank (taken from the French word for white, 'blanc') meant 'pointing at the target.'
Example: That girl doesn't leave any room for misinterpretation: when Danny asked her out on a date, she said "no", point-blank.

QUOTE BOX

If you tell the truth, you don't have to remember anything.

—Mark Twain

Sudoku is a number-placing puzzle based on a 9x9 grid with several given numbers. The object is to place the numbers 1 to 9 in the empty squares so that each row, each column and each 3x3 box contains the same number only once. The difficulty level of the Concept is Sudoku increases from Monday to Sunday.

CRYPTOQUIP

The Cryptoquip is a substitution cipher in which one letter stands for another. If you think that X equals O, it will equal O throughout the puzzle. Single letters, short words and words using an apostrophe give you clues to locating vowels. Solution is by trial and error.

Rotary Panchsheel donated Oxygen Concentrators, face masks, oxygen mask, hand wash, soaps and other necessary items to PKTB and CD Hospital in city recently. The donations were handed over by Rotary Panchsheel President-Elect M.D. Harinath, Rtn. Anand and Rtn. Satish to PKTB Hospital Medical Superintendent Dr. H.M. Virupaksha. Resident Medical Officer Dr. M. Jayashekar and Nursing Superintendent Vanajakshi were present.

On the occasion of Mask Day, Mysuru Yuva Balaga distributed face masks to children at Ambedkar Colony on KRS Road in city, yesterday. Department of Women and Child Development Director Renukaraj, who launched the initiative, addressed the gathering and advised parents and children to wear face mask, maintain social distance and use sanitiser to prevent the spread of the virus. BJP Women's Wing General Secretary Nagaratna Gowda, Mysuru Yuva Balaga President Naveen, Papanna and others were present.

City dentists Dr. N. Anusri and Dr. Nisarga Kansar, under the aegis of Ani Foundation, distributed grocery kits to over 50 auto drivers of Hebbal and Vijaynagar at Sankranti Circle in Hebbal here recently. Dr. Nisarga Kansar said, "Auto drivers have been severely hit by this lockdown and as a token of gratitude, we both decided to distribute grocery kits, which include rice, pulses, sugar and other essential commodities to over 50 auto drivers through our Ani Foundation."

Members of Thoogudeepa Darshan Abhimanagala Balaga distributed grocery kits to employees of Gayathri Theatre in city. The kits were distributed by noted actor and theatre artiste Mandya Ramesh at the theatre premises. Former Mayor Sandesh Swamy, Gayathri Theatre owner M.R. Rajaram, Balaga members including Mahendra Singh Kalappa, Jeevadhara Girish, M.D. Parthasarathi and others were present on the occasion.

NCC Cadets distribute food to the needy

NCC Cadets of 14 Karnataka Bn NCC, Mysuru, distributed food packets to needy persons near K.R. Hospital in city recently. As part of the initiative to feed the hungry, the Cadets not only prepared fresh food themselves but also packed the food in aluminium foil boxes and distributed them to about 200 needy people. The Cadets, inspired by NCC values and principles with motto of care and empathy for the society, contributed in a small way by cooking and distributing fresh food to the needy.
